Venice Architecture Short Film Festival

The Venice Architecture Film Festival is an annual event dedicated to explore relevant issues in contemporary architecture and rediscuss the role of public spaces.

This year's edition runs from **September 1-5, 2020** with a rich programme of projections divided into three different sections. The first one dedicates a special focus to architectural artists and filmmakers **Bêka & Lemoine**, with five selected short-films by the duo. The second consists of a competition between five more films, selected by a jury of professionals. Out of competition, two more selected short-movies will be also part of the programme.

The projections will take place in three different locations around Venice: **Giardini della Marinaressa**, **Padiglione Venezia**, and the clusters of **San Francesco della Vigna**.
