Living Together Again – The Architecture Short Film Competition

The competition is open and free. The films will have a maximum duration of 15 minutes and will deal with the theme Living Together Again.

The selected films deal with issues related to the different dimensions and meanings of contemporary architecture, with particular regard and exploration on the themes of the city, the landscape, the use and re-appropriation of public space, sociability of sharing and neighborhood life.

For the 2020 "Living together Again" edition of the Venice Architecture Short Film Festival, Archituned in collaboration with an external Jury of experts and professionals of the architecture and cinema field will create a selection of short films on architecture. The selection will include a.o. documentaries, animations, experimental shorts, etc, from international authors to be presented in Venice from 1st – 5th September 2020 on the occasion of the Festival.

Competition Calendar

Please register and submit the works from the first days to avoid unexpected delays.
